- 13.30 Drawing up your results (Dry Practical)
- 14.30 Post-fieldwork, archiving and end of day discussion
- 15.15 Get involved and discover more
- 16.00 Course End

Please plan for dives to c.18metres for c.30mins. To save time we would advise bringing your diving equipment pre-assembled with tanks for two dives pre-filled for a c.18m dive.

Please make sure you bring enough warm clothing for Capernwray in December. Average water temperature at that time of year is 8 degrees. Please make sure that your regulators are well serviced and able to cope with cold temperatures.

You will be expected to sign a waiver on the day confirming that both you and your kit is fit on the day. The NAS reserve the right to refuse to let you dive if we believe you to be unfit/unwell.
